

BENCH AT BUS-STOP

Katharine suggested getting a bench at the bus-stop *again* but as she was not prepared to varnish it and she is in her last year of school ...

SUCKER GADGET FOR LIGHT BULBS!!?

One of the halogen bar lights needs replacing but is stuck. Pam's son has a gadget that might just help – she will find out more.

3. TREASURER'S REPORT

See attached report.

It was noted that we currently have a healthy cash position due to more events than usual over the summer and a rebate from the Village Hall of £540 (for which we are very grateful).

We still want to make improvements to the clubroom. The 4 new chairs have proved successful and we will need to get a few more but the committee also feel that the upholstered seats in the bar are well past their prime.

Two suggestions here:

- Reupholstering the existing seats
- Remove the seats and buy some sofas, which could be moved to suit the occasion at different events. The downside to this suggestion is that the carpet would also need replacing.

Obviously more discussion required.

We will make efforts to find somebody to quote for reupholstering the existing seats to aid our decision-making.

MEMBERS' LIST

We need an up-to-date list of members behind the bar so that non-members can be identified and asked to sign in. Particularly relevant for Darts Nights. Neil to be sent a list also.

FOUR CUCUMBERS IN THE FRIDGE

Whose are the cucumbers? Deirdre thought they were ours. No-one on our committee knows anything about them and Katharine will dispose of them in her role as cleaner. Liz suggests we put a note on the fridge asking that food should not be left in the fridge after a function.
